

PREETHIKA S U

Coimbatore, India | +91 9361323020 | preethikasasikumar@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

PROFILE

M.Sc. Data Science student with hands-on experience across full-stack web development and machine learning. Skilled in building role-based platforms with Flask and MongoDB, as well as ML/NLP applications using Scikit-learn and Streamlit. Strong interest in building end-to-end solutions, from backend logic and databases to data analysis and user-facing interfaces.

EDUCATION

Coimbatore Institute of Technology — M.Sc. Data Science 2024 – 2026
CGPA: 7.8 (till 4th Semester)

AVB Matric Higher Secondary School — Higher Secondary 2024
Aggregate: 86%

SKILLS

Programming Languages: Python, Java, SQL

Web Development: HTML, CSS, JavaScript, Flask

Databases: MySQL, MongoDB

Data Science & ML: Pandas, Scikit-learn, NLP, Streamlit

Tools: Git/GitHub, Excel, VS Code

Areas of Interest: Full-Stack Development, System Design, Data Visualization, Open Source

PROJECTS

Farm2School — Full-Stack Farmer-School Marketplace Platform *Tech Stack: Python, Flask, MongoDB, HTML, CSS, JavaScript*

- Built a full-stack platform connecting farmers and schools directly, with role-based dashboards, authentication, and district-based matching.
- Implemented end-to-end order management with live status tracking, Flask-Mail notifications, and multilingual support (English, Tamil, Hindi).

BusEase — Smart Bus Crowd & Seat Prediction *Tech Stack: Python, Pandas, Scikit-learn, Streamlit*

- Built an ML-based transit assistant predicting bus crowd levels and seat availability using a Random Forest classification pipeline, deployed via Streamlit.

Bloom's Taxonomy Classifier *Tech Stack: Python, NLP, Scikit-learn, Streamlit*

- Developed an NLP application classifying questions into Bloom's Taxonomy levels (K1–K6) using TF-IDF and Logistic Regression, deployed via Streamlit.

Data Detective *Tech Stack: Python, Pandas, Scikit-learn, Data Analysis*

- Built a data-analysis project uncovering patterns and insights from structured datasets through preprocessing, exploratory analysis, and visualization.

FOSS-CIT Blog — Club Blog Website *Tech Stack: HTML, CSS, JavaScript, JSON, Markdown*

- Built a static blog website with dynamic client-side rendering from a JSON index and a markdown-based content system (via marked.js), plus real-time search and filtering.

ROLES & RESPONSIBILITIES

Head of Social Media and External Affairs — FOSS Club of CIT May 2026 – Present

- Managed and created engaging content across social media platforms to promote club events and increase student participation.

Speaker — Flask Workshop, FOSS Club of CIT December 2025

- Delivered a session on Flask fundamentals and building basic web applications to club members.

HACKATHONS & COMPETITIONS

- EClearnix Hackathon 360° (Round 2) — Online hackathon, advanced to the second round.
- Innovision – Hack the Vision — Participant | Smart India Hackathon — Participant, internal round.

CERTIFICATIONS

- Full Stack Development — Udemy
- Linux Workshop — FOSS Club of CIT | TCS iON Career Edge – Young Professional Course
